APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100150011-0

Republic of China

OFFICIAL STANDARD NAMES

approved by the

UNITED STATES BOARD ON GEOGRAPHIC NAMES

Prepared by the
Defense Mapping Agency Topographic Center
Washington, D. C. 20315, May 1974

FOR E W O R D

This gazetteer contains about 25,000 entries for places and features in the Republic of China, including the island of Taiwan, its offshore islands, and Chin-men Tao (Quemoy) and other islands off mainland China which are administered or controlled by the Republic of China.

The names in this gazetteer supersede those in all previous Board on Geographic Names (BGN) lists for the areas concerned.

This gazetteer differs from others in the BGN gazetteer series in that it is designed to serve also as an index to names on the latest edition of Series L7001 1:50,000 scale maps for the area delimited above. Geographic coordinates and map sheet numbers have been supplied from the Series L7001 for each named entity in the gazetteer. Where a BGN approved name (main entry) differs from that on the above-cited map series, the form which appears on the map has been cross-referenced to the approved name.

Entries include standard names approved by the Board and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to the main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:50,000. Entries include all names on the latest 1:50,000 scale map series, including the names of administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Airfields, particularly those used in international traffic, are commonly known in many countries of the world by more than a single name in both official and in non-official usage. Such is the case in regard to a number of airfields in

the Republic of China. Because of the specialized requirements for airfield names in communication, the Board finds it impractical to adopt a name selected arbitrarily from different names and differently spelled names in widespread use. Accordingly, airfield information, found in the tables following the normal alphabetical arrangement (pages 788 and 789), comprises all names derived from official source materials, including preferred and alternate names promulgated in Department of Defense Flight Information Publications.

Most of the entities can be identified and located by the approved name or airfield name or a recognizable variant on one or more of the following sources which are not available for public distribution:

1. *Taiwan 1:50,000*, Series L7001 and/or L793, China Map Service/Army Map Service, 1967--72; 1st and 2nd editions.
2. *Taiwan 1:50,000*, Series L792, Army Map Service, 1956--64.
3. *Taiwan 1:25,000*, Series L892, China Map Service/Army Map Service, 1955--62.
4. Chinese (ROC) hydrographic charts, various scales and dates.
5. (*T'ai-pei-shih Ti-hsing-t'u*) (*Topographic Map of T'ai-pei Municipality*), Topographic Service, Combined Service Forces, Taipei, 1972; scale 1:20,000.

Evaluation

The overall quality of the names in this gazetteer is excellent. The contributions to this gazetteer by the China Topographic Service and the Ministry of Interior of the

Republic of China are gratefully acknowledged. Maps produced by the China Map Service of the China Topographic Service in cooperation with the U.S. Army Topographic Command (now the Defense Mapping Agency Topographic Center) have provided the basic information for the description and naming of features included in this gazetteer.

The Ministry of Interior has provided a publication titled *Standard Names Listing, Taiwan Province*, (Taipei, 1972) which lists 8,000 names which have been approved for official use in Taiwan. This publication has been accepted by the U.S. Board on Geographic Names as the most authoritative source for names of the features listed therein. The *Standard Names Listing* has been used in conjunction with the maps produced by the China Topographic Service in the standardization of names. Additional names of coastal features have been derived from Chinese hydrographic charts.

Names have been romanized according to the Modified Wade-Giles System (See Interpretation of entries, below).

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer to accommodate it to machine tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. Variant names include former BGN recommendations, spelling variations found on older sources, and parenthetical names shown on current maps of Taiwan. Variant entries are not included in this gazetteer for names which differ only in respect to diacritical marks. The variant names are always cross-referenced to the standard names by use of the word "see". Where part of a name is underlined, the use of the part not underlined is

optional. If two or more names are approved for a feature, each is identified in parentheses and any or all may be used.

Names containing generic elements preceding the specific terms (except names of populated places) are alphabetized by the specific part; thus, *Republic of China* is listed as *China, Republic of*.

Frequently two or more separate settlements with the same name occur in the same vicinity. These are differentiated on map series L7001 by an Arabic numeral appended to the name in parentheses. These numerals have not been included in approved names, but are listed in cross-references to approved names. Example: WAI-LIAO (2) SEE WAI-LIAO.

Other settlements which appear to be duplicates but are separately-named entities are not differentiated except in some cases by the presence or absence of such suffixes as *-li*, *-ts'un*, *-tzu*, and others. Always refer to maps for the correct application of these named features.

An effort has been made to obtain Chinese characters for all Chinese standard names from recent authoritative Chinese sources. Names available in Chinese characters have been romanized according to the Modified Wade-Giles transcription system adopted by the Board on Geographic Names in 1943 and also used by names authorities of other governments, such as the Permanent Committee on Geographical Names for British Official Use.

The BGN has adopted certain modifications to the System as employed in the Giles dictionary (Giles, H.A., *Chinese-English Dictionary*, London, second edition, 1912) including omission of the circumflex accent, and has adopted romanizations for numerous Chinese characters which do not appear therein.

In addition to the Giles dictionary, the following publications have been employed in the preparation of this gazetteer:

1. *Guide to Geographical Names in China*, Special Publication No. 24, U.S. Board on Geographical Names, Department of the Interior, Washington, D.C., June 1944.
2. *Modified Readings of Chinese Characters for Place Names Romanization Based on Wade-Giles System*, China Topographic Service, Taipei, Republic of China, December 1971. (This publication revises and brings up to date the *Key to Wade-Giles Romanization of Chinese Characters*, Army Map Service, Washington, D.C., November 1944.)

The diacritical marks used in approved names as romanized by the Modified Wade-Giles System are the dieresis (‘) and the apostrophe ('). These marks are to be used whether the names are written in capital or in a combination of capital and lowercase letters. Because of printing limitations, the apostrophe (') appears as a tick mark (') in this gazetteer.

In writing Chinese names in capital and lowercase letters, the initial letter in each word, except those following hyphens, should be capitalized. Examples: K'an-t'ou; Kao-chung Shan.

In writing Chinese names, the established practice of the Board was followed; i.e., (1) Except as noted below, specific and generic elements were separated by a space, and romanizations of individual characters within each element were separated by hyphens, (?). Certain descriptive words such as *ta* (big), *kao* (high), and *hsin* (new), while forming part of the generic element, were separated from the basic generic term by a space and were hyphenated to the specific element instead. Examples: Pai-kou-ta Shan; P'a-p'a-hsi Hsi.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in *this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In the Republic of China some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	first-order administrative division (<i>shih</i> ; <i>sheng</i>); second-order administrative division (<i>hsien</i> ; <i>shih</i> ; <i>ch'ü</i>); third-order administrative division (<i>shih</i> ; <i>hsiang</i> ; <i>chen</i>)
AIRF	airfield (place where aircraft land and take off, with runways and related improvements but without well-developed facilities for the commercial handling of passengers and cargo)
AIRP	airport (place where aircraft regularly land and take off, with runways and major facilities for the commercial handling of passengers and cargo)
ANCH	anchorage (place within a harbor or roadstead where ships may anchor)
BAR	sandbar (deposit of waterborne materials at or below water level at the mouth of a stream)
BAY	bay (coastal indentation of a size intermediate between a gulf and a cove)
BCH	beach (deposit of sand or other unconsolidated material along a shore)
BDG	bridge
BGHT	bight (open body of water forming a slight recession in a coastline)
BLDG	building(s) (functions either unspecified or as indicated by the generic term)
BND	stream bend (conspicuously curved portion of a

	stream; may in some cases include the area enclosed by the bend)	ISL	island
CAPE	cape (seaward end of a projection of land of such position and size as to affect the course of ships)	ISLS	islands
CHNM	marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine water body)	LCTY	locality (minor area or place of unspecified or mixed character and indefinite boundaries)
CLF	cliff (high, steep rock face overlooking a lower area, such as a water body, coastal lowland, or valley)	LDNG	landing (place where small boats are tied up or beached when not in use; place where small boats touch land for the purpose of taking on or discharging people or cargo)
CMPL	logging camp	LGN	lagoon (water body along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)
CMTY	cemetery	LK	lake
CNL	canal (includes drainage or irrigation ditches)	LT	lighthouse
CNLA	aqueduct (canal or conduit used to carry a municipal water supply)	MFG	factory
COVE	cove (small bay)	MFGB	brewery
CSWY	causeway (raised roadway across wet ground or shallow water; may include low bridges in part)	MFSU	sugar refinery
DAM	dam (barrier constructed across a stream to impound water)	MN	mine
DCKB	docking basin (part of a harbor where ships dock)	MNC	coal mine
FRM	farm (includes sugar, tea, pineapple, and rice plantations, ranches, and unspecified agricultural facilities)	MNMT	monument
FRMS	farms	MT	mountain (landform with conspicuous relief, moderate to high elevation, and small summit area)
GRGE	gorge (narrow, steep-sided section of a stream course); defile (constricted section of a valley)	MTS	mountains; mountain range
HBR	harbor (body of water providing shelter for ships)	MUS	museum
HDLD	headland (conspicuously high piece of land jutting out into or fronting the sea)	MVA	maneuver area
HLL	hill (landform of moderate relief, moderate elevation, and small summit area)	NSY	nursery
HLLS	hills	OILR	oil refinery
HSP	hospital	PASS	pass (way over or between mountains or other elevated land)
INDS	industrial area (includes "export processing zones" combining the attributes of free ports and industrial parks)	PCLI	independent political entity (republic)
		PEN	peninsula (area of land projecting into and largely, but not entirely, surrounded by water)
		PGDA	pagoda (religious or other memorial, usually multi-storied and of tower-like design)
		PK	peak (separately-named summit on a more extensive elevation)
		PND	pond (small standing water body)
		PP	police station

PPL	populated place (city, town, village, settlement)	RR	railroad
PPLL	populated locality (features shown on the L7001 map sheets in capital letters and locality type style, usually with the suffixes of -TS'UN or -LI, and applied to the most important features in a given populated area. Several small populated places with some of the same name elements may be included in the populated locality) Examples: PU-CH'ENG-TS'UN; PPLL Hsia-pu-ch'eng; PPL Pu-ch'eng-ti; PPLL	RRQ	former railroad
PPLX	section of populated place (part of a city or contiguous urbanized area named as an entity but having no known administrative status)	RSTN	railroad station (building used for the transaction of railroad business, located beside a railroad track at a point where trains regularly stop to take on and discharge passengers or freight)
PRK	park	RSV	reservoir (large artificially impounded body of water)
PRT	port (place where waterborne cargo is transferred to and from ships, including facilities for berthing ships and handling cargo)	RVN	ravine (short, steep, V-shaped watercourse)
PS	power station	SALT	salina (salt-evaporation field, diked and ditched, with associated structures)
PT	point (relatively minor projection of land, or its extremity, into a water body)	SCH	school
RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)	SCHA	agricultural school
RDST	roadstead (area of navigable water, less protected than a harbor, suitable for the passage and anchorage of ships)	SCHC	college
RECG	golf course	SCHU	university
RF	reef(s) (offshore consolidated-rock hazard to navigation with a least depth of twenty meters [or ten fathoms] or less)	SEA	sea
RKSW	rocks in water	SHOL	shoal (an offshore hazard to navigation with a least depth of twenty meters [or ten fathoms] or less, composed of unconsolidated material)
RKW	rock in water (individual rock of such character and importance as to be identified by name, situated either above or below the surface of a body of water; often associated with reefs but separately named)	SLP	slope (gradient on the side or end of a mountain or other relief feature, less steep than a cliff)
RNGA	artillery range	SPIT	spit (beach material deposited by a coastal current)
ROAD	road	SPNG	spring; hot spring
		SPUR	spur (short sloping ridge extending laterally from a mountain or other elevation)
		ST	street
		STM	stream (river or other running fresh water body, perennial in all or part of its course)
		STMA	anabanch (stream that leaves the main stream and rejoins it after following a separate course for a considerable distance)
		STMD	distributary (secondary watercourse carrying part of the drainage of a larger stream into another water body; characteristic of deltas)
		STMM	stream mouth
		STMX	section of stream (separately named part of a stream, not delimited by significant confluences)
		STNE	experiment station

STNI	inspection station
STNL	work station
STRT	strait (relatively narrow passage connecting larger bodies of water)
TMB	tomb
TMPL	temple
TNL	tunnel
VAL	valley (deep natural hollow or vale of no great extent, the sides usually clothed with trees or foliage)
WEIR	weirs
WTRW	waterworks

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouth or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the administrative division in which the place or feature is located, as listed below:

43500 REPUBLIC OF CHINA (General and for features in more than one division)

TAIWAN PROVINCE

43501	Chang-hua Hsien	43508	Kao-hsiung Shih
43502	Chia-i Hsien	43509	Miao-li Hsien
43503	Chi-lung Shih	43510	Nan-t'ou Hsien
43504	Hsin-chu Hsien	43511	P'eng-hu Hsien
43505	Hua-lien Hsien	43512	P'ing-tung Hsien
43506	I-lan Hsien	43513	T'ai-chung Hsien
43507	Kao-hsiung Hsien	43514	T'ai-chung Shih

43515	T'ai-nan Hsien	43537	Mu-cha Ch'ü
43516	T'ai-nan Shih	43538	Nan-kang Ch'ü
43517	T'ai-pei Hsien	43539	Nei-hu Ch'ü
43519	T'ai-tung Hsien	43540	Pei-t'ou Ch'ü
43520	T'ao-yüan Hsien	43541	Shih-lin Ch'ü
43522	Yün-lin Hsien	43542	Shuang-yüan Ch'ü
43530	T'ai-pei Shih (General and for features in more than one Ch'ü)	43543	Sung-shan Ch'ü
43531	Ch'eng-chung Ch'ü	43544	Ta-an Ch'ü
43532	Chien-ch'eng Ch'ü	43545	Ta-t'ung Ch'ü
43533	Ching-mei Ch'ü	43546	Yen-p'ing Ch'ü
43534	Chung-shan Ch'ü	43550	Offshore Islands (under the administration of a Fukien Province bureau in Taipei)
43535	Ku-t'ing Ch'ü		
43536	Lung-shan Ch'ü		

Sheet number.—The sixth column indicates the sheet number of the L7001 map series on which the feature can be located. Extensive features such as mountain ranges and streams, which may be named on more than one sheet, are listed only once in this gazetteer. The sheet number listed is that of the one on which the midpoint of an areal or linear feature or the mouth of a stream is located. (See Latitude and longitude on this page.) Some features included in this gazetteer are not named on the Series L7001 but are named on maps of other series or on hydrographic charts. Sheet references have been supplied for such features as an aid in location.

Glossary of generic terms

The following terms occur as the generic parts of standard names and airfield names in the gazetteer. The English term or terms which correspond to each local term were applied after objective study of cartographic and other source materials, and do not necessarily reflect dictionary or other normalized usages.

an	headland; temple	hsia	gorge
ao	bay, cove	hsiang	third-order administrative division
ch'e-chan	railroad station	hsien	second-order administrative division
chen	third-order administrative division	hsüeh-hsiao	school
chia	point	hsüeh-yüan	school
chia-kung-ch'u-k'ou-ch'ü	industrial area	huo-ch'e-chan	railroad station
chiau	cape, point, reef, rock(s) in water, shoal, slope	i-chuan	school
ch'iao	bridge	i-yüan	hospital
chi-ch'ang	airfield; artillery range	kang	hill, mountain, ridge; anchorage, bay, cove, docking basin, harbor
chien	mountain, point	kang-k'ou	cove, stream mouth
chien-ch'a-chan	inspection station	kang-p'i	reservoir
ch'ien	reef, rock in water, shoal	kung-yeh-ch'ü	industrial area
ch'ien-lai	shoal	kang-tao	marine channel
chih	lake	kao-chi-chung-hsüeh	school
chih-liu	section of stream	kao-erh-fu-ch'iu-ch'ang	golf course
chih-t'ang-nung-ch'ang	farm	k'eng	ravine
ching-ch'a-p'ai-ch'u-so	police station	kou	stream
chou	reef, island, shoal	k'ou	stream mouth
ch'ü	second-order administrative division; stream	ku	ravine
ch'uan	stream	kuan	pass
ch'üan	canal	kung	temple
chün	canal, stream	kung-ch'ang	factory, mine
chung-hsüeh	school	kung-lu	road
chün-kang	port	kung-mu	cemetery
chu-t'a	lighthouse	kung-tso-chan	work station
fa-tien-ch'ang	power station	kung-yüan	park
fa-tien-so	power station	kuo-chi-chi-ch'ang	international airport
fei-chi-ch'ang	airfield	kuo-chung	school
feng	hill, mountain, peak	kuo-hsiao	school
hai-hsia	strait	lai	shoal
hai-pin-yü ch'ang	beach	lieh-tao	islands
hai-shui yü-ch'ang	beach	lien-yu-ch'ang	oil refinery
ho	stream	ling	hill, mountain, spur
ho-tso-nung-ch'ang	farm	lin-pan	logging camp
hsı	stream		

lin-yung-kuei-tao	railroad
ku	street
mao-ti	anchorage
ma-t'ou	landing
mei-k'uang	coal mine
men	marine channel
miao	temple
miao-pu	nursery
min-kuo	independent political entity (republic)
nu	cemetery, tomb
mu-ch'ang	farm
nung-ch'ang	farm(?)
nung-chuang	buildings
nung-yeh-ch'ü	industrial area
nung-yeh-hsüeh-hsiao	agricultural school
p'ai-ch'u-so	police station
p'ai-shui-kou	canal
p'ai-shui-lu	canal
p'ai-shui-tao	canal
pi	cape, point
p'i-chiu-ch'ang	brewery
p'o	mountain, slope
po-li-ch'ang	factory
po-ti	roadstead
po-wu-kuan	museum
sen-lin-t'ieh-lu	railroad
sha	reef, rock in water
shan	hill, mountain(s), peak, slope, spur
shan-mo	mountain range
sheng	first-order administrative division
shih	first-order administrative division, second-order administrative division, third-order administrative division; reef, rock(s) in water
shih-chuan	school
shih-yen-so	experiment station
shui-hsien	canal
shui-k'u	reservoir
shui-lu	canal
shui-tao	marine channel, strait, stream
shui-yüan-ti	waterworks
ssu	temple
sui-tao	tunnel
ta-hsüeh	university
t'an	lake, reservoir; sandbar
t'ang	pond; temple
t'ang-ch'ang	sugar refinery
t'ang-kung-ssu	sugar refinery
t'ang-yeh-shih-yen-so	experiment station
tao	island, rocks in water, spit
teng-t'a	lighthouse
tiao-ch'iao	bridge
t'i	causeway
t'ieh-lu	railroad
t'ieh-tao	railroad
tien-ch'ang	power station
ting	hill
t'ou	cape, point
ts'ao	aqueduct
tsui	reef, shoal
tz'u	temple
wan	bay, bight, cove, lagoon
wei	cape, point
wen	rock in water
wen-ch'üan	hot spring
wen-li-hsüeh-yüan	college
wen-tzu	reef, rock in water
yai	cliff
yen	hill, rock(s) in water, spur
yen-ch'ang	salina; factory
yen-hsi-ch'ang	maneuver area
yen-t'ien	salina

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100150011-0

yü	island, reef, rock in water, peninsula	information to:
yü-ch'ang	weirs; beach	I
yün-ho	canal	U Y

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes including, if possible, the source of the correct

Created in 1849, the Department of the Interior – America's Department of Natural Resources – is concerned with the management, conservation, and development of the Nation's water, wildlife, mineral, forest, and park and recreational resources. It also has major responsibilities for Indian and Territorial affairs and for standardization of Federal usage of both domestic and foreign geographic names.

As the Nation's principal conservation agency, the Department works to assure that nonrenewable resources are developed and used wisely, that park and recreational resources are conserved for the future, and that renewable resources make their full contribution to the progress, prosperity, and security of the United States – now and in the future.
